

WARRANTIES

When choosing a roofing company it is important to look at more than just the cost of the work to be done. Weathertightness and the warranties that cover the materials, and installation, need to be given at least as much consideration. Calder Stewart Roofing, as a well established and reputable company, offer reliable warranties on the materials we manufacture and install. We have a highly skilled work force with many years of experience, in both manufacture and installation, to depend on. All Warranties offered are in line with that offered by the base material suppliers.

Our long trading history can be treated as an indicator, to our future presence and to our ability to address any warranty issues.

RESIDENTIAL WARRANTIES ON PRODUCTS IN A MODERATE ENVIRONMENT

Most residential buildings are considered to be in a moderate environment. A moderate environment is generally classified as being at least 500m away from the coast and 250m away from industrial emissions.

RESIDENTIAL INSTALLATION WARRANTY The workmanship of Calder Stewart Roofing Installation teams is guaranteed for five years from the completion of the work.

COMMERCIAL WARRANTIES

Warranty periods for Metal Longrun Roofing, Cladding, Rainwater Goods and Paltec Fascia, are dependent on the choice and use of the material and the environment it is exposed to. An assessment is made by the material manufacturer and Calder Stewart Roofing to evaluate warranty periods for each individual commercial building.

COMMERCIAL INSTALLATION WARRANTY

The workmanship of Calder Stewart Roofing Installation teams is guaranteed for five years from the completion of the work.

Warranties are subject to adherence to a regular maintenance programme, especially cleaning of unwashed areas (areas not washed by rain) and installation as per manufacturers recommendations. Full details of the terms of individual product warranties and Calder Stewart Installation Guarantee are shown on each specific warranty form. To the best of our knowledge all information is correct at the time of printing.
